HYDROLIZED KERATIN /

Hydrolized keratin

INCI: Aqua, Hydrolyzed keratin
Level use / shampoos: 1-5%
Level use / conditioners: 1-3%
Level use / hair lotions: 2-10%
Level use / nail products: 3-5%
Compatible with ionic and nonionic surfactants

Partially hydrolyzed keratin obtained by enzymatic hydrolysis of virgin Merino wool in low temperature and neutral pH with an average molecular weight of 3000 Daltons, which provide targeted action.

- Provides body, elasticity and luster to the hair
- Helps hair to restore their natural keratin from damages caused by dying or styling
- Protects against surfactant irritations of the surfactants contained in cleaning formulations
- Strengthening agent for the nails
