# ANTIWRINKLE-ANTIOXIDANT CREAM WITH HONEY AND TOMATO

DIYIDEA #15

Rich texture cream with antioxidant agents. Jojoba, grapeseed and tomato oil as well as honey, offer hydration and at the same time protect from free radicals, which cause premature ageing of the skin. All this combined with its soft and silky texture leave a unique effect.

## WHAT YOU'LL NEED

Beaker

Ingredients

Stainless spatula or spoon

Scale & Thermometer

	INGREDIENTS	FOR 100g		INGREDIENTS	FOR 100g
WATER PHASE I	Olive tree floral water or deionized water	65g	OILY PHASE II	Olive natural emulsifier	6g
	Glycerin	3g		Cetyl alcohol	4g
	Xanthan gum	0,25g		Beeswax	2g

	Tomato oil in lycopane	2g		Olive oil	3g
				Shea Butter	3g
				Grapeseed oil	3g
			PHASE IV	Geogard 221	1g
				Aloe vera gel 10:1	1g
				Honey	2g
				Perfume	0,2g
				Citric acid	

## USE:

Apply in the morning and in the evening on clean skin with upward motion.

## PACKAGING PROPOSAL:

Airless bottle 50ml or 100ml or glass jar 50ml or 100ml

**Water phase I:** Spread xanthan gum in glycerin (it becomes a syrup) and add it in the water (which you have already boiled and let it cool to 75 °C) , while stirring until it becomes homogenous. The phase should stay at 75 °C.

**Oily phase II:** Mix the ingredients and heat in a bain marie at 75 °C. Add **phase III** at the end before mixing phase II with phase I.

**Emulsification:** Add phase II in phase I while stirring intensively for 5-10 minutes. Then let it to cool.

**Actives-Phase IV:** To temperature under 45 °C add phase VI. Measure pH with the pH strips and if it's higher than 5,5 add drops of citric acid solution to make it 5,5.
