Shampoo for oily hair

Shampoo for oily hair

Shampoo for oily hair with effective actives against greasiness. Propolis flavonoids have antibacterial, anti-inflammatory and sebum regulating properties, proven with in vivo and in vitro tests, while wheat protein repairs damaged hair keratin and reduces surfactant irritancy.

WHAT YOU'LL NEED:

Ingredients

Beaker

Stainless spatula or spoon

Digital cooking scale with gram accuracy (at least)

INGREDIENTS	FOR 100g
Phase I	
Water	48.70g
Iselux® SFS-SB	40g
Propolis flavonoids	2g
Wheat protein	5g
Phase II	
Coco-betaine	3g
Peppermint ess. oil	0.3g
Phenoxyethanol	1g
Citric acid	Until pH 5,5-6

PREPARATION:

Mix the ingredients of Phase I and stir with the spatula until it's homogenized. In a different beaker prepare phase II and add it to phase I.

Tip: If it's very fluid you can add a little citric acid to fix the viscosity and pH(5.5-6)

PACKING PROPOSAL:

Glass or plastic bottle with lid.
