

DIYIDEA/ FORMULA

Night cream with peptides and
superfoods

Night cream with peptides and superfoods

Night cream rich in antioxidants, with anti-aging and moisturizing properties and protection against the action of free radicals.

The actives boost the synthesis of collagen and elastin, giving the skin more elasticity and firmness, while smoothing the wrinkles giving a youthful look.

DIYIDEA #20

WHAT YOU'LL NEED:

Ingredients

Beaker

Stainless spatula or spoon

Scale & Thermometer

PREPARATION:

Phase I: Mix the ingredients in the beaker and heat the mixture to 75-80°C. Stir to homogenize.

Phase II: Mix the ingredients and heat it to 70-75 °C while stirring.

Emulsification: When both phases are homogenous and in the right temperature add **phase II** in **phase I** and stir intensely for 10-15 minutes until the cream is homogenized. Let it cool down.

Phase III: Add to temperature under 45 °C. Finally measure pH with pH strips and add drops of citric acid to reach pH 5,0-6,0, if needed.

PACKAGING PROPOSAL:

Airless bottle 100ml or glass jar 50ml or 100ml
