

DIYIDEA/ FORMULA

TWO-PHASE MAKE UP REMOVER

TWO PHASE MAKEUP REMOVER

If you are looking for an effective and quick way to remove make up (even water-resistant), use this formula.

The aqueous phase of euphrasia revitalizes and purifies the pores, while the oily phase removes make-up and nourishes the eyelashes thanks to the castor oil.

INGREDIENTS		FOR 200g
Phase I	Euphrasia water	118,60g
	Salt of Messolonghi	1,20g
	Sodium benzoate	0,18g
Phase II	Jojoba oil colourless	52g
	Plantsilicone (olive oil derivative)	20g
	Castor oil	8g

WHAT YOU'LL NEED:

Ingredients

Beaker

Stainless spatula
or spoon

Scale

PREPARATION:

Phase I: In the euphrasia water dissolve the salt and sodium benzoate.

Phase II: Gradually mix the ingredients and stir until it's homogenized. Finally mix the two phases.

USE:

Shake well and wet a cotton pad with the mixture. Make gentle movements on face and eyes to remove impurities. Rinse with water if you want

PACKING PROPOSAL:

Glass or plastic bottle 200ml with lid.
